STUDIO FIELDNOTES / GREAT MASTERS / K–2

Marks That Carry Feeling | Vincent van Gogh

Teacher guide · K–2 · 45–55 minutes × 2–4 sessions

Essential question

Can mark direction change how a familiar place feels?

Why this investigation matters

Avoid romanticizing mental illness or suffering

The finished work

Expressive place painting that shows a chosen emotional quality

Methods and material suggestions

directional strokes, complementary colors; choose materials suitable for your space: drawing and collage materials, paper, water-based media, or clean reclaimed objects as appropriate.

Learning targets

Students will: analyze a relevant visual or disciplinary source; experiment with directional strokes, complementary colors; create an original response; give and use evidence-based feedback; and explain one artistic choice.

Teaching progression

01 / Engage

Show the inquiry question: Can mark direction change how a familiar place feels? Invite a noticing, a wonder, and an initial interpretation.

02 / Investigate

Study at least two credited examples associated with Vincent van Gogh. Avoid romanticizing mental illness or suffering Students annotate the evidence that supports their thinking.

03 / Skill Studio

Demonstrate directional strokes, complementary colors with a short material experiment. Students test the technique and record what changes.

04 / Generate

Produce at least two distinct visual approaches to the challenge. Compare how each communicates the idea.

05 / Plan

Choose an approach, identify materials and sketch a sequence of actions. Name one foreseeable difficulty.

06 / Produce

Create the original artwork or design: Expressive place painting that shows a chosen emotional quality. Photograph or annotate work in progress.

07 / Critique

Use evidence-based peer feedback: one element that communicates, one question, one suggested next move.

08 / Revise

Make one visible revision in response to critique or new evidence. Record before-and-after choices.

09 / Present

Display or share the result with a student-authored explanation and credits for research sources.

10 / Reflect

Return to the inquiry question and explain what the work now communicates, what changed and what could improve next time.

Standards and adaptation

NCAS Visual Arts Creating, Responding and Connecting (anchor-level alignment); match grade-specific performance standards before instruction.

Students study the artist as a source of artistic inquiry and make an original response rather than a copy.

Differentiation and access

Offer visual exemplars, tactile or large-print materials, verbal/audio explanations, partner brainstorming, alternate motor tools, and choice in subject matter. Model a single technique, then invite students to make two choices and describe one with words, drawing, or speech.

Teacher checks

Before: Ask students to answer: Can mark direction change how a familiar place feels? Record a drawing, annotation or discussion response.

During: Look for purposeful use of directional strokes and a clear link between research evidence and design choices. Ask students to explain an alternative.

After: Compare first plan and revised result; collect a student statement naming one choice, one change, and the evidence that motivated it.

Source and representation care

Research original works using the cited museum or artist resources. Do not imply the supplied editorial cover graphic depicts the artist or their copyrighted artwork. Credit creators and seek permissions for reproductions. Use culturally situated examples rather than assigning a universal style to a whole group.
