French Quarter Ironwork Shadows

NEW ORLEANS CULTURAL STUDIO | LESSON 62 | GRADES 3–5 | CULTURE & SOURCES

Context before technique

New Orleans architectural details reflect many eras, skilled trades, and cultural influences.

Whose story is being told?

Teach this lesson through identified New Orleans institutions and, where possible, community-authored testimony. Name the people, places, and historical context in your examples. Explain what remains unknown or contested.

Responsible artistic engagement

Identify whose labor built spaces; do not claim every balcony has the same origin or style.

Visual permissions

Do not download photographs or artwork from source websites for public display unless permission or a valid license is confirmed. A live research link is not a license. The included lesson illustration is original conceptual artwork and not historical evidence.

Discussion prompts

- Who created or maintains this tradition, space, or object?
- What do outsiders often overlook?
- Which images would require permission, and whose voices are missing?

Teaching note

These starter sources support inquiry, not a complete ethnography. Prioritize up-to-date local perspectives and appropriately compensated cultural partnerships when possible.
