Tomb Architecture & Remembering

NEW ORLEANS CULTURAL STUDIO | LESSON 68 | GRADES 6–8 | STUDENT STUDIO BRIEF

Your challenge

Study above-ground tomb geometry and restoration, then design a memorial model or drawing for a fictional or personally chosen subject.

Three questions before you begin

1. Who created the local art, object, or practice we are studying?
2. What will you make that is distinctly your own?
3. How will your audience know the meaning of your choices?

Investigate, sketch, choose

Collect two references with their creators or sources. Draw three small alternatives. Circle the one that best meets your idea and explain why.

Make and improve

Make a scaled memorial design with explanation. During critique, identify a visual strength, ask one authentic question, and revise at least one part of the work.

Cultural care

Avoid cemetery fieldwork without permission, gravestone rubbings, or photographing identifiable graves without care.
